

Perfection in Precision

P32/48/72/96

MARINE AND AERONAUTICAL COATINGS

These systems are ideal for medium to large scale production.

- The patented system with its unique component dispensing point enables these machines to dispense into containers of all sizes
- The systems are fully automatic and easy to use, and enable operators to produce the desired quantities reliably and fast, based on the formulations stored in the system's database
- The systems are operated via a computer using Maestro® software
- Both gravity and pump driven versions are available to carry base components to the dispensing head
- Precise quantities are accurately dispensed in sequence on a gravimetric basis
- The components are stocked in either fixed or interchangeable barrels, tanks or containers
- The systems are configured according to the space available and the required production volumes

Perfection in Precision

P32/48/72/96

MARINE AND AERONAUTICAL COATINGS

ADVANTAGES

- Stock reduction and rationalization
- Improved color reproducibility
- Improved productivity
- Space and manpower savings
- Environmental protection
- Improved security and working conditions
- Production return management
- Waste reduction
- Improved flexibility
- Reduced machine downtime

TECHNICAL DATA

Components

P32	32	DN18	DN28
P48	48	DN32	DN50
P72	72	DN32	DN50
P96	96	DN32	DN50

Dispensing Accuracy

Average Dispensing Time

1gr (0.1gr an option)

Barrels 25ltr 3-4 min

Tanks 200ltr 7-10 min

Containers 1000ltr 20-25 min

Dispensing Valve Diameter

For P32	DN18	DN28
For P48	DN32	DN50
For P72	DN32	DN50
For P96	DN32	DN50
