

Perfection in Precision

PICCOLO

MARINE AND AERONAUTICAL COATINGS

This compact system is ideal for medium scale production.

- The system is operated via a computer using Maestro® software
- The system can handle both water-based and solvent-based products (Eex version)
- The components are stocked in either fixed or interchangeable drums or containers
- The system can be configured to fit the space available

Perfection in Precision

PICCOLO

MARINE AND AERONAUTICAL COATINGS

ADVANTAGES

- Stock reduction and rationalization
- Improved color reproducibility
- Improved productivity
- Space and manpower savings
- Environmental protection
- Improved security and working conditions
- Production return management

TECHNICAL DATA

Number of Components

Up to 21-3 on/off

Dispensing Accuracy

1gr (0.1gr an option)

Dispensing Time

3 min for a 25kg pail

Containers

25kg pails (50-200kg barrels an option)
