

Perfection in Precision

PESA

LABORATORY UNITS

This manual dispensing system is ideal for in-plant operations.

- The system is operated via a computer using Maestro® software
- The software plus a high-resolution scale provide clean and easy ink management with minimum operator input
- The system prompts the operator to select the desired color formula
- The scale is automatically calibrated by the computer
- The computer displays the exact weight of each ingredient for the selected batch and automatically prints a detailed weight summary sheet for each batch
- The computer alerts the operator to any errors and recalculates the formula to correct the error

PESA

LABORATORY UNITS

ADVANTAGES

- Total reproducibility of formulas
- Ability to produce small quantities of inks
- Production return management
- Ease of operation via user-friendly interface
- Automatic formula backup to prevent loss of data
- Easy loading and researching of formulas
- Password protection of formula database
- Automatic generation of production reports by the software

TECHNICAL DATA

Dispensing Accuracy

1gr

Containers

25ltr

Dimensions (WxHxD)

900mm x 1860mm x 600mm

Weight

160kg

Screen

17"

Solvent-Based Application

Conforms with ATEX regulations
